

CUSTOMER SHOPPING BEHAVIOR

Retention is the next growth lever

High loyalty, low subscription adoption, and discount-led growth point to a measurable opportunity.

Made with GAMMA

THE CUSTOMER BASE

3,900 purchases reveal a broad but measurable customer base

A clean baseline makes the retention opportunity easier to size.

3,900
transactions

$59.76
average purchase amount

3.75
average review rating

4 categories

25 products

50 locations

Ages 18–70

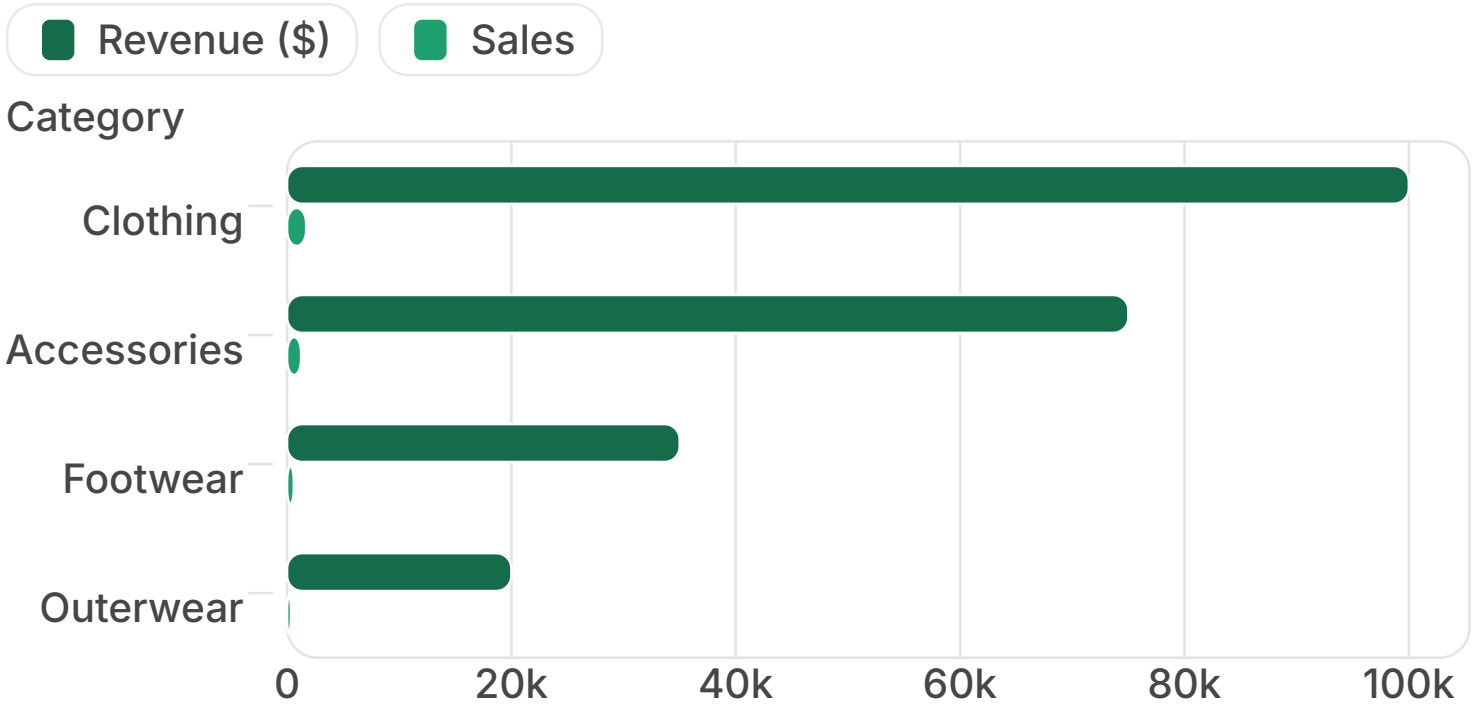

Data preparation: missing review ratings were imputed by product category median; redundant promo-code data was removed.

CATEGORY PERFORMANCE

Clothing leads the commercial engine

Clothing and accessories drive the majority of revenue and volume.

Clothing is the clear anchor.

It leads both revenue and sales volume, with accessories the next commercial engine.

Made with GAMMA

PRODUCT SIGNALS

Product demand is concentrated in a few repeatable winners

The strongest products combine category leadership with evidence of customer approval.

DISCOUNT DEPENDENCE

Discounts attract spenders, but some products may be over-dependent

839

customers used discounts while spending above the average purchase amount

Highest discounted-purchase rates

hat 50.00% · sneakers 49.66%

coat 49.07% · sweater 48.17%

pants 47.37%

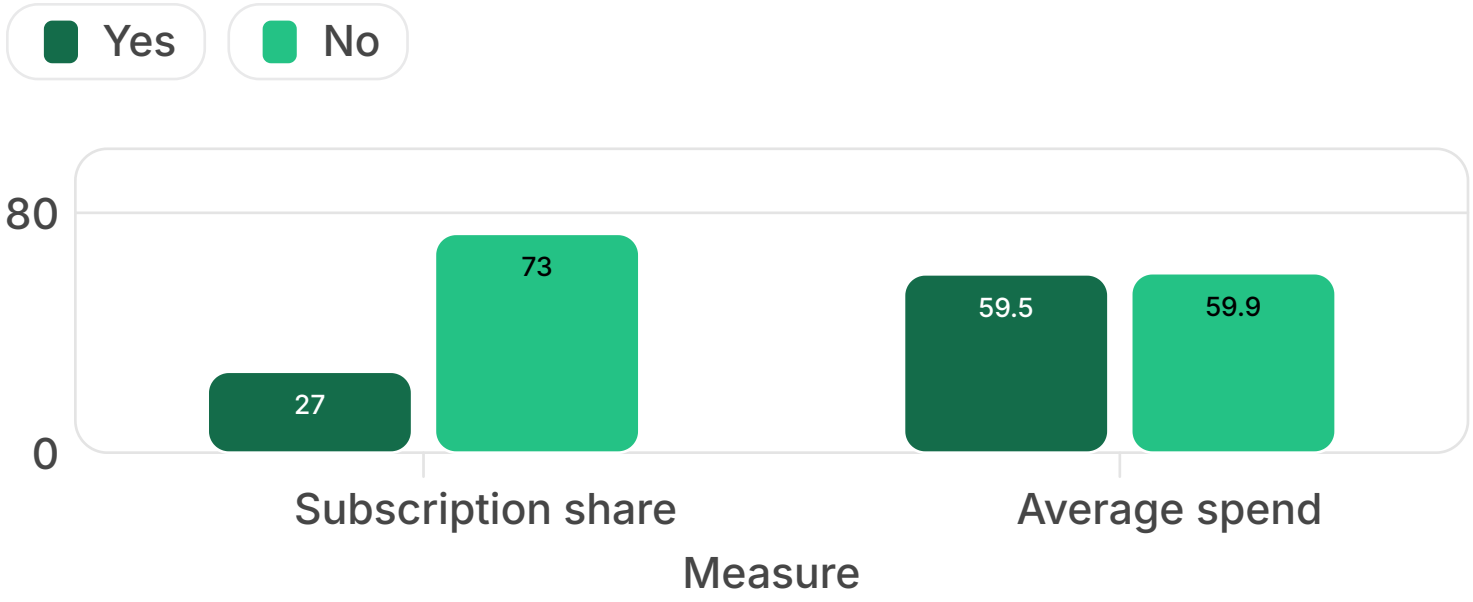

Preserve discount-led conversion where it lifts basket size, while testing margin protection on discount-dependent items

LOYALTY VS. SUBSCRIPTION

Loyal customers dominate, but subscriptions are not keeping pace

Loyalty is high, but subscription adoption is low and does not yet correlate with higher average spend.

3,116 loyal customers

701 returning · 83 new

Only 27% subscribed, while average spend is nearly flat: $59.49 versus $59.87.

REPEAT BEHAVIOR

Repeat buying is a larger growth lever than acquisition

Proven repeat behavior gives the subscription proposition a stronger starting point than first-order incentives.

01

Repeat buyers

3,476 customers had more than five purchases.

02

Subscriptions

958 subscribed versus **2,518** who did not.

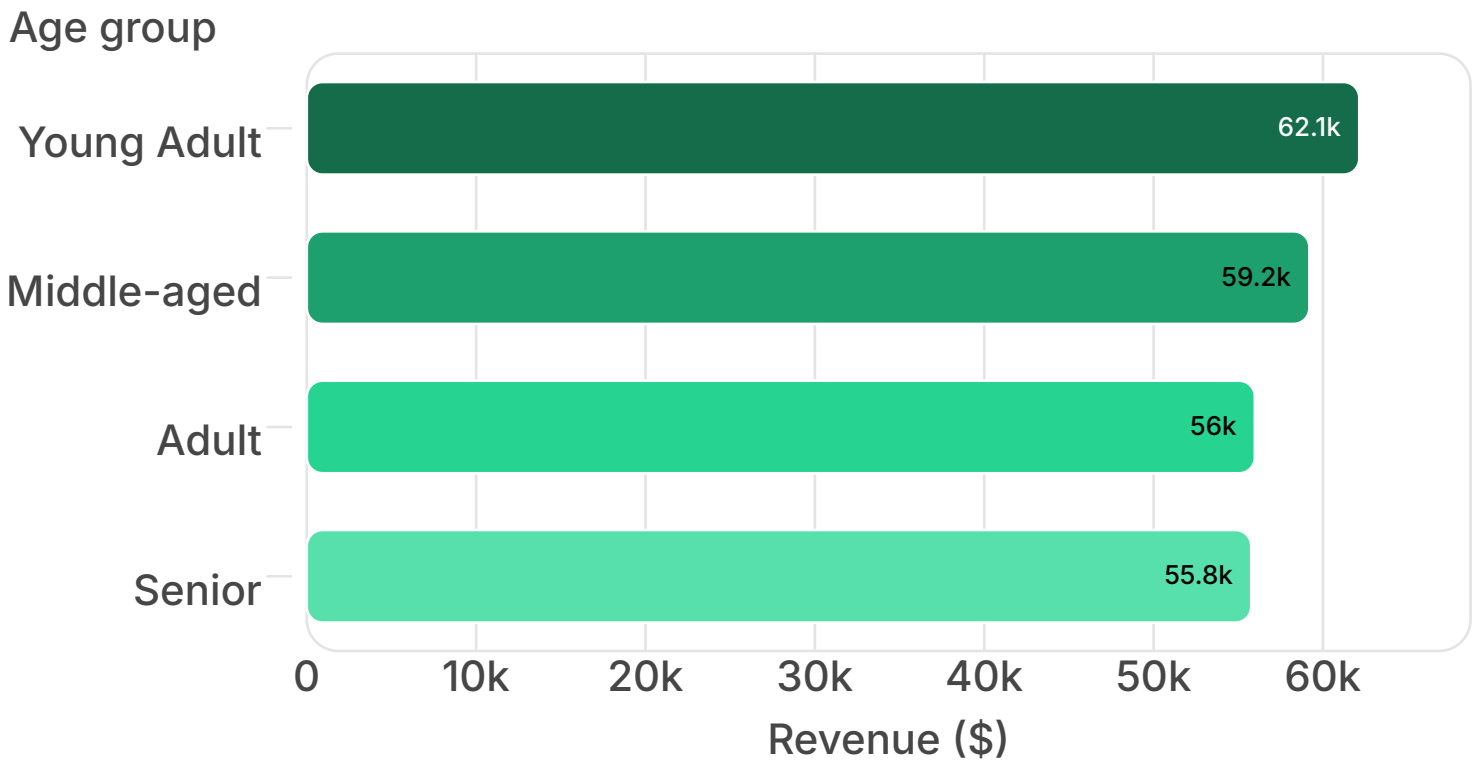

Made with GAMMA

CUSTOMER VALUE BY AGE

Young adults contribute the most revenue, with a balanced age mix

Revenue is distributed across all age groups, with young adults slightly ahead.

Shipping adds a second value signal.

Express-shipping orders average $60.48 versus $58.46 for standard shipping.

THE GROWTH AGENDA

Five actions can turn the findings into growth

1. **Boost subscriptions:** Add exclusive benefits tied to repeat purchase behavior.
2. **Reward loyalty:** Move returning customers into the loyal segment with targeted rewards.
3. **Review discount policy:** Protect margin on hats, sneakers, coats, sweaters, and pants while retaining high-value conversion.
4. **Position proven winners:** Feature top-rated and best-selling products in campaigns.
5. **Target by value:** Prioritize young adults and express-shipping users, then test performance by segment.
